PUBLISHER

ACTIVITIES	ACTIONS	ACTIONS	ACTIONS
• Review content	• Provide platforms to self-publish	• Track research output	• Edit content
• Review proofs	• Host research-related data	• Track compliance	• Design and package
• Publish content	• Catalog, tag, and archive research	• Provide platforms to self-publish research results	• Assign metadata / enable discoverability
• Publish supplementary data	• Assign DOIs for publication	• Support sharing (data, code, MSS, etc.)	• Publish
• Promote research	• Incentivize publication of negative results	• Incentivize publication of negative results	• Curate volumes/issues
INVESTMENTS	INVESTMENTS	INVESTMENTS	INVESTMENTS
• Subscribe to marketing tools (e.g., Kudos)	• Invest in websites/platforms/repositories and appropriate processes	• Invest in platforms that enable self-publishing	• Diagnose host content directly
• Time invested for author profiles, ORCID records, etc.	• Invest in integrated library system technology	• Invest in websites/platforms/repositories and appropriate processes	• Set up third-party distribution
REWARDS	• Subscribe to marketing tools (e.g., Kudos)	REWARDS	• Deposit in repositories, archive content / manage data
• Advance career/tenure	• Invest staff time in managing APCs and embargoes	• Achieve mission	• Manage permissions for reuse
• Enhance reputation in institution	REWARDS	• Raise reputation	• Liaise with society partners
• Enhance reputation outside institution	• Achieve institutional mission	• Change in ecosystem due to OA	• Monitor / preview content
WHAT KEEPS ME UP AT NIGHT?	• Attract talent	• How to support/fund publication/sharing	• Incentivize publication of negative results
• Worry about impact of my research	• Attract more students	• Pressure on our mission due to disruption of ecosystem	• Mine data sets
• Pressure of "publish or perish"	• Attract more research funding		INVESTMENTS
	• Raise reputation		• Invest in editorial and/or production platforms
	WHAT KEEPS ME UP AT NIGHT?		• Invest in web sites/platforms/repositories and appropriate processes
	• Flat or diminishing library budgets		• Pay distribution fees to aggregators
	• How to support/fund publication/sharing of research data		• Pay annual dues to standards organizations
	• The demands of negotiating OA		• Pay typesetters and metadata taggers
	• Pressure from entities like Sci-Hub		• Invest in staff
			• Pay other third-party fees
			REWARDS
			• Achieve revenue targets
			• Gain new insights and products
			• Attract new customers
			• Raise reputation
			• Enhanced awards in society members

Loi de Moore

Moore's Law: The number of transistors on microchips doubles every two years

Moore's law describes the empirical regularity that the number of transistors on integrated circuits doubles approximately every two years.

This advancement is important for other aspects of technological progress in computing – such as processing speed or the price of computers.
